

Using Rubba Roof Primer

A. Use Rubba Roof Primer on:

- Asphaltic Surfaces
- Roofing Felt
- Plywood and timber
- Concrete and Masonry

B. Rubba Roof Primer can be applied with a roller or brush.

C. Make sure any cracks etc. are primed fully.

D. Wait until Primer is dry, or at least tacky, before applying Rubba Roof.

E. Approximate yield on most surfaces $\approx 8\text{m}^2$ per litre.
